

# SAP® Translation Hub

## USE CASE:

Your company plans to use the SAP® Translation Hub application for the translation of product documentation. The service is activated on January 27. Usage starts in February with 650,000 characters and in March with 1,110,000 characters.

## CHARGES:

Note: 100,000 characters = 1 block (rounded up to next integer)

<b>JANUARY</b>	0 blocks   €39/block = €0
<b>FEBRUARY</b>	7 blocks   €39/block = €273
<b>MARCH</b>	12 blocks   €39/block = €468

There are no charges in January, because the service charges are based on the actual consumption only. In February and March, the next integer of blocks is charged to cover the consumption.

The purpose of this document is to illustrate the price calculation. Since there could be changes to the service, including the pricing and the metric, this document is not a source for pricing information. Please check the pricing information on [SAP Cloud Platform](#) and in the "[SAP Cloud Platform Service Description Guide](#)."
