

SAP® Data Quality Management

USE CASE:

Your company plans to use SAP® Data Quality Management software to improve the quality of the delivery addresses and avoid wrong delivery attempts by enriching them with geocoding. The software is activated on January 21. Usage starts in February with 1,350 API calls.

CHARGES:

JANUARY	No charges because there was no consumption = €0
FEBRUARY	1,350 API calls 0.06 €/call = €81

Consumption enablement: After the service is activated, API calls are processed. Charges are based on consumption (API calls) without any further customer interaction.

The purpose of this document is to illustrate the price calculation. Since there could be changes to the service, including the pricing and the metric, this document is not a source for pricing information. Please check the pricing information on [SAP Cloud Platform](#) and in the “[SAP Cloud Platform Service Description Guide](#).”
